

Amendment Under 37 C.F.R. § 1.111
Serial No. 10/654,435
Sughrue Ref: Q76953

REMARKS

Claim 20 is the only claim pending in the application.

The Examiner has objected to the specification. Specifically, the Examiner contends that it is necessary to amend the specification to indicate that it is a divisional of the parent application. Such an Amendment was requested in the cover page of the divisional application. More specifically, when Applicants filed the divisional application, Applicants requested that the following be inserted before the first line: "This is a divisional of Application Serial No. 09/908,612, filed July 20, 2001; the disclosure of which is incorporated herein by reference." Thus, entry of this amendment is respectfully requested.

The Examiner has also requested that reference numeral 228 in line 14 of page 6 of the specification be changed to "28". Applicants have amended the specification accordingly.

The Examiner has indicated that claim 20 would be allowable if amended to overcome a rejection based on § 112 (second paragraph) as being indefinite. More specifically, the Examiner notes that, as claimed, the two sub-assemblies (the casing with the film cover and the lid with the presser) are never assembled together in the steps recited in claim 20. Therefore, Applicants have added a final step of mounting the lid to the casing. This should overcome the rejection and result in allowance of the application.

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.
